Gender Equality

The largest equity allocation in each of our Demand Wealth Hope portfolios is in the YWCA Women’s Empowerment ETF (WOMN). This fund contains companies worldwide with strong policies and practices in support of women’s empowerment and gender equality. This fund has a gender equality score in the **99.5th percentile** compared to all US equity funds.

Fossil Fuel Exposure

This screen details the percentage of funds invested in companies who process, extract, or burn fossil fuels. Included in this screen are owners of fossil fuels, coal miners and owners of coal reserves, oil/gas producers and refiners, oil field services and equipment companies, pipeline operators, owners of coal-fired power plants, and companies whose electric utilities are powered by coal or natural gas. As of 12/31/2020, Demand Wealth’s Hope 100/0 portfolio has **1.58%** of all equity invested in companies who fail this screen. For more information, please visit <https://fossilfreefunds.org/>.

Deforestation Risk

This screen details the percentage of funds invested in companies who are contributing to deforestation. Included in this screen are companies that produce/trade palm oil, paper/pulp, rubber, timber, cattle, and soy, or have a past record or a significant risk of contributing to deforestation, land grabbing, and human rights abuses. Also included are banks/lenders that are directly or indirectly involved in financing deforestation-risk producers and traders, and retailers who source palm oil, paper/pulp, rubber, timber, cattle, and soy from deforestation-risk producers and traders and sell it to consumers worldwide. As of 12/31/2020, Demand Wealth’s Hope 100/0 portfolio has **8.29%** of all funds invested in companies who fail this screen. For more information, please visit <https://deforestationfreefunds.org/>.

This screen details the percentage of funds directly invested in companies engaged in the production or sale of military weapons and civilian firearms. Included in this screen are major military contractors, cluster munition and landmine manufacturers, nuclear weapon manufacturers and servicers, civilian firearm manufacturers, and civilian firearm retailers. As of 12/31/2020, Demand Wealth’s Hope 100/0 portfolio has **0.47%** of all equity in companies who fail this screen. For more information, please visit <https://weaponfreefunds.org/>.

Weapons Exposure

All data taken as of 12/31/2020. Portfolio allocation and/or environmental statistics may have changed since this date. Due to the nature of the screening tool, only Equity investments have environmental statistics. The “Equity Weight” percentages above represent the equity allocations in the Demand Hope 100/0 model. Equity weights in other Demand Hop models may vary. Totals represent a weighted average. Please direct all inquiries to hope@demandwealth.com.

2020 Q4 Sustainability Report

Tobacco Exposure

This screen details the percentage of funds directly invested in companies that produce tobacco, manufacture tobacco products, or promote tobacco to children. Included in this screen are all companies who produce or manufacture tobacco products, and all entertainment companies that show smoking in movies marketed to kids. As of 12/31/2020, Demand Wealth's Hope 100/0 portfolio has **1.16%** of all equity in companies who fail this screen. For more information, please visit <https://tobaccofreefunds.org/>.
